A13. RIGHT.-The steam fire engine Eclipse No. 1, which was damaged a short time since, has been thoroughly repaired, and is now as good as new. She was fairly tried vesterday afternoon, and poured forth a flood as usual. DULL. - Yesterday was the dullest day

of the winter. But little business of any kind was transacted. The cotton market was particularly flat. There was no good reason for this state of things, and some thing different is expected to day.

DELAYED. - The regular Louisville pas senger train, due here last evening, was de layed an hour behind time. The cause of the detention was some slight accident to a freight train, near Elizabethtown, Ken tucky, and it in turn delayed the passenger

THE cold snap of the last few days has given way to a more genial atmosphere. Yesterday the sun came out in all his splendor. gradually melting away the snow which had waked up the jingle of the mercy sleigh hells, and cutting short the sport of the scores of boys who, on miniature sleighs, chased each other pell-mell down steep and slippery sidewalks. A general thaw had been going on during the day, and last wishs the seather had moderated to a remperature suggesting the property of discarding overcosts, and doffing mufflers.

MANIFESTO FROM THE HEAD OF THE BUREAU. - A circular just issued by Gen. Howard, head commissioner of the Freedmen's Bureau, will increase the difficulty of Sambo's pleasure trips at the expense of Uncle Sam. As it may affect parties in this part of the Bareau vineyard, we publish the document for the benefit of all concerned. Here it is:

Special attention of the assistant commissioners of this Bureau is called to the subject of transportation. Transportation is given only to relieve the government from the support of the indigent, and to enable those in extreme want to reach places where they can provide for themselves. Hereafter no orders for transportation of refugees and freedmen will issue except from this office, and every application, besides the rigid conditions already imposed, must set forth clearly the fact of extreme destiion, which must be certified assistant commissioner in person.

Wz observe that several of the Southern papers have followed the example of the Nashville press in reducing the rates of subscription. We are gird to see that the leading religious as well as the secular prem is pursuing this course. The Atlanta Index and Southwestern Baptist, the leading journal of that decomination in the South, has reduced its rates from five 'to four dollars per annum. More of the prosperity of the Southern people depends upon our purely religious press than is generally supposed, and it is to be hoped that this affuence may be made universal, by placing this class of publications at the lowest possible price.

SCALDED-A little girl named Burnliving on Cedar street near Summer, was pretty badly scalded yesterday morning, by the overturning of a vessel containing boil ing water. The little sufferer was pretty badly, but not dangerously, damaged about the neck and arm.

RELEASED ON BAIL .-- Vesterday aftersoon a negro named Aleck Johns, on giving the necessary security-five hundred dollars, we believe-was released from the ounty jail. The crime for which he was ncarcerted was larceny, and histrial comes off at the next term of the Criminal Court.

THE NICOLSON PAVEMENT,-The hands employed in laying the Church and Sprace dreet railroad yesterday had occasion to take up a small portion of the Nicolson avement near its termination on Church. The blocks thus removed were found to be a perfect state of preservation, not even nowing any signs of water or weather having touched them. The ends composng the surface of the street showed very ightly the effects of use, but upon applyng the rule the length was about the same as when put down eight or nine months ago-there had been no perceptible wearng away. Inasmuch as the McAdamizaon on Church and Cherry, contiguous, laid nce the wooden pavement was put down, | 1867 has already worn out, it appears that our experience with the Nicolson has been a

THE ADELPHI. - After the long dearth in the way of amusements, it is peculiarly gratifying to be able to state definitely that the Old Drury, so long the pride of Nashrille play goers, is to be opened positively n Thursday night, initiating the theatrical eason. As may be seen by advertisement another column, a first-class company as been secured, and Mr. O. B. Doud, who spoken of very favorably by the Louisille papers, will be the star for a few venings. On Monday evening, we learn, Miss Dora Shaw, now playing a successful ngagement in Louisville, will commence n engagement. The fine weather will very soon set in, and we trust that our amose neut seekers will turn out in such force, as to give manager Davis all necessary entragement in the inauguration and con innance of his enterprise.

SATURDAY'S ACCIDENT ON THE LOUIS ILLE RAILROAD, -The first rumor of the ceident which occurred on the Louisville ailroad, on Saturday, made it appear more grious than it really was. The facts conected with the affair are these: Passenger train No. 4 left this city for Louisville at twelve o'clock on that day, and when a ile and a half north of Franklin by som of March next, by E. R. Campbell, special accident, two passenger cars and the baggage car were thrown from the track, one of the passenger and the baggage car being precipitated down an embankment and completely demolished. Fortunately, there were not more than ten or twelve passengers on the train, nearly all of whom were n the passenger car, which was not inured. Those who were in the car thrown down the embankment were all more or less hurt, though none seriously. Among those injured are Major B. Compton, connctor, Blane Marshal, Jr., baggage-master, and a brakeman whose name was not given. The accident was caused by the ienvy snow, or, as some assert, by the track being out of line.

> RELIGIOUS AWAKENING. - The regival of resigion which has been going on in the First Presbyterian Church for the last three weeks, still continues with increasing interest. On Sunday evening, after a very earnest and impressive discourse from Rev. Dr. Nall, those interested in religion, and wishing the prayers of the Church, were inrited forward. During the singing of a couple of hymns, about forty in the congregation, nearly all of whom were young perons under twenty, went to the front, thu manifesting publicly their desire for the prayers of the congregation, and their anxiety for their spiritual welfare. Last night the lecture room was perfectly crowded, and the services indicated even more solemnity than characterized the expreises of any previous meeting. Doctors Bunting and Nall have labored incessantly, night and day, since the incipient stages of the revival, and their labors are now being crowned with abundant success,

> FROZEN TO DEATH. - A melancholy case death from exposure to the weather ocarred on Sunday night, probably the coldest we have had during the recent freezing spell. Yesterday morning early a young man named Andrew Matterer was found on the commons, near Maple street, South Nashville. On learning of the matter, Corner Norvell summoned a jury composed of the following persons: Ambrose Owen, foreman, Wm. White, Harry Hill, Samuel Hill, Joseph Clark, Thomas Briard, and John Stewart. An inquest was held, and after the necessary investigation a verdict was rendered that deceased came to his death by being frozen while in an intoxicated condition, Matterer was about twenty-six years of age, a jeweler by w trade, and for some time previous to his leath had been working at Faller's shop n Deaderick street. He was, it is said possessed of fine natural talents, and was not only an adept in his own particular ousiness, but excelled as a portrait and landscape painter. Among the articles ound on his person after death, were three silver watches and a breastpin. His remains were taken care of by his friends, and properly interred.

new bondssold at 521c. Money continues to work easier in New York. Our mail advices of the evening o the 8th inst, report that the loan market is very abundantly supplied and rates are easier. Some old engagements are still moving at 7, but new business is chiefly mere imitations, and should be avoided. Sold done at 6 on miscellaneous securities, and at 5 on governments. Heavy balance are accumulating of memployed capital, which is left with the first class hooses at a nominal rate of inferest. Discounts are dull,

the best bills passing at 7. One of the main features of the February statement of the national debt is that for the first time in several months the greenback circulation has increased. The entargement is inconsiderable and amounts only to about \$1,000,000, which is offset by about \$1,900,000. The gold certificates have increased three millions and a half, and the coin balance in the treasury has declined half a million. The currency balance has accumulated twelve millions during the month, and now amounts to exclusive of cash in the treasury, shows an increase of about nine millions of dollars. The statement exhibits a very slow progress in funding. No more than ten millions of five-twenty bonds have been sold, and some fifteen millions of seven-thirties and compounds have been taken in and cancelled The New York Times of the 7th inst

"The trong probability at Washington is that "The strong embability at Wathington is that \$100,000,000 lawful money, treasury certificates, will be authorized to take the place of the compound legal-tenders, a corresponding amount of which fall due in all the present year. There may be a modification of the rate of interest to be allowed on such cartificates. (The withdrawal of the \$4,000,000 per months control of the Searchtry of the Treasury over the greenback circulation, though passed upon by the flours of Representatives will conveil be agreed to by the intion, though passed upon by the House of Representatives, will scarcely be agreed to by the Senate, or favored by the Finance Committee of either branch of Congress. Every confidence is now felt that this discretion will be wisely exercited by Mr. McCulloch, and the chances are that he will make no further contraction, for come time to come, under this authority. The other measures, however, having the countenance of the Senate Committee, the favor of the Secretary, and of the whole Western and part of the Northern influence in the House, will tare, we believe quite differently."

The new tax bill makes no change in the whisky tax, except to provide stringent measures for collecting it. Remonstrances from all quarters were received by the Committee of Ways and Means against reduction, and protesting against such injustice and loss as would be inflicted upon holders' interests all over the country if the reduction had been made. It is represented that over thirty millions of gellons of spirits are held in stock by dealers of all kinds, on which the loss would amount BAGS, ETC. | to as many millions of dollars. Moreover, it was represented that this measure would throw immense profits into the hands of parties who will secure controlling powers in the market for reduction. The very parties who after securing control of the bulk of marketable whisky 1865, inflenced Congress to increase the tax from one dollar and a half to two dollars per gallon, and then pocketed the immense gains thus

derived. Messrs, Lockhart & Dempster report the Liverpool cotton market in their circular of the 18th ult, as follows:

"The market which closed dull last week, remained very quiet for some days, and prices continued slowly to decline until the middle of the week, when an improved demand for years and goods in Manchester produced a slight revival of business here, and a portion of the previous decline in prices was recovered. To-day the market is somewhat quieter in tone owing to flatof business here, and a portion of the previous decline in prices was recovered. To day the market is somewhat quieter in tone owing to fister accounts from Manchester, but the recovery in prices are maintained. American cotton has been in moderate demand, and prices, after declining about 1/2 der 1b. in the early part of the week, can now be quoted 1/2 per 1b. lower for middling grades, and 1/3 per 1b. lower for inferior. Sea Islands have been considerably pressed for sale, but as there has been a fair demand, prices although irregular, can scarcely be quoted lower. Exptian has been freely offered, and prices must be quoted irregular at 1/2 to 1/2 per 1b. dia and other short stapled descriptions are about 1/4 per 1b. lower. East India and other short stapled descriptions have been very dult and close at a decline of 1/2 per 1b upon last week's quotations. There has been a moderate amount of business "to arrive" during the past week's quotations. There has been a moderate amount of business "to arrive" during the past week's the latest quotations being for New Orleans midding, at sea, ship named, at 1/3 per 1b., and for Texas, same terms, 14/3 per 1b. The sales for the week amount to 41,60 bales, including 14,90 bales American, of which 27,200 bales are to the trade, 6810 on apeculation, and 7500 for export. Actual exports, 8548 bales.
